Điểm	<b>10,00</b> của 10,00 ( <b>100</b> %)

Câu hỏi **1**Chính xác
Điểm 1,00 của 1,00

A model of the software testing process?

- a. Prepare test data -> Prepare test environment -> Run the tests -> Make report.
- b. Design test cases -> Prepare test data -> Prepare test environment -> Make report.
- o. Design test cases -> Prepare test environment -> Run the tests -> Make report.
- od. Design test cases -> Prepare test data -> Run the tests -> Make report.

Câu trả lời đúng là: Design test cases -> Prepare test data -> Run the tests -> Make report.

Điểm 1,00 của 1,00	
Test automation is/are	
a. All of the other answers.	
<ul> <li>b. The use of software to control the execution of tests, the comparison of actual outcomes to predicted outcomes, the setting up of test preconditions, and other test control and test reporting functions</li> </ul>	
c. A software to automatically detect errors inside the software-under-test using modern techniques such as artificial intelligent.	
d. Hardware/robots work as software testers.	
Câu trả lời đúng là: The use of software to control the execution of tests, the comparison of actual outcomes to predicted outcomes, the setting up of test preconditions, and other test control and test reporting functions

Điểm 1,00 của 1,00	
The role of software testing in software development	
<ul> <li>a. is not so important, when it takes place at the stage outside the software development cycle.</li> </ul>	
<ul> <li>b. ends with accepting or rejecting a product without concerning the developer team.</li> </ul>	
c. begins with improved reliability, quality and performance of the software.	
<ul> <li>d. All of the other answers are correct.</li> </ul>	
Câu trả lời đúng là: begins with improved reliability, quality and performance of the software.	

Câu hỏi 5

Điểm 1,00 của 1,00	
The goal of software testing is/are	
<ul> <li>a. To show that how good the software is when there are no more detected defects.</li> </ul>	
b. To prove the quality of the development team.	
<ul> <li>c. To demonstrate that the software meets its requirements and to discover situations in which the behavior of the soft incorrect.</li> </ul>	tware is
d. All of the other answers are correct.	
Câu trả lời đúng là: To demonstrate that the software meets its requirements and to discover situations in which the behavi incorrect.	rior of the software is

Testing activities should start as early as possible.</li> </ul>	ojective. :

Câu trả lời đúng là: Exhaustive testing is possible, and a perfect way of testing.

Câu hỏi <b>8</b>	
Chính xác	
Điểm 1,00 của 1,00	
What is a test scenario?	
what is a test scenario?	
<ul> <li>a. Is defined as any functionality that can be tested.</li> </ul>	
<ul> <li>b. A collective set of test cases which helps to determine the positive and negative characteristics of the project.</li> </ul>	
<ul> <li>c. Any software functionality/feature that can be tested is said to be a Test Scenario.</li> </ul>	
d. All of the other answers are correct.	~
Câu trả lời đúng là: All of the other answers are correct.	
Câu hỏi <b>9</b>	
Chính xác	
Điểm 1,00 của 1,00	
Software testing is	
<ul> <li>a. A process of executing a program with the intent of finding errors.</li> </ul>	
b. To ensure that software product is defect free.	
c. A method to check whether the actual software product matches expected requirements.	
d. All of the other answers are correct.	<b>~</b>
Câu trả lời đúng là: All of the other answers are correct.	
Câu hởi <b>10</b>
